Rapid Product Development Group, Inc. (RPDG) announces ISO-9001:2000 certification for Mexico Prototype Manufacturing facility

Rapid Product Development Group, Inc. (RPDG) has been awarded ISO-9001:2000 certification. The ISO certification process ensures on-going compliance to standards of performance because, once certified, companies are externally audited every six months for continuous execution of the standards. Conformance to ISO 9001:2000 quality assurance standards required the implementation of procedural changes, training, increased documentation, and adjustments to operating systems on every level of the manufacturing process.

"ISO registration supports our pursuit of continuous improvement and an on-going commitment to provide our customers assurance of great service and product quality", said Miguel Diaz, Director of Mexico Operations. "Our success in achieving this goal is due to the tremendous dedication and teamwork of our employees".

About RPDG
