Xpress Product Development Group, Ltd. (XPDG) introduces Xpress Tooling to the UK

XPDG announced today the launch of Xpress Tooling to the UK market. Xpress Tooling utilizes advanced 3D mould design software combined with a huge capacity of dedicated state-of-the-art equipment including high speed CNC and EDM. Custom pre-made mould bases are also employed to help XPDG offer typical project deliveries from 1-4 weeks. Xpress Tools can employ complex slides and lifters without any size limitations.

Tony Moran, Managing Director of XPDG, commented, "XPDG's Xpress Tooling services, combined with our local team of tooling program management experts, offers our UK customer a tremendous resource to quickly receive complex injection moulded parts."

About XPDG

Xpress Product Development Group, Ltd. (XPDG) is a manufacturing and product development firm with quality, speed and customer service at the core of our corporate culture.

XPDG serves a global clientele in the automotive, computer, consumer products, healthcare and industrial equipment industry. The diverse customer requirements are met through our team of highly-skilled engineering and manufacturing professionals. XPDG provides the following turnkey solutions that combine development and manufacturing into one seamless process:

Development & Manufacturing

- CAD Services
- Rapid Prototyping (CNC, SLA, Polyjet, SLS, FDM, RTV, Sheetmetal, Metal Casting.)
- Tooling (Xpress, Bridge, Export, Production)
- Production (Injection Molding, Die Casting, Sheetmetal Stamping)
- Contract Manufacturing (Short Run Specialists)

XPDG is headquartered in the UK. For more information contact XPDG via e-mail at Quotes@XPDG.com or the web at www.XPDG.com.
